

Our Programs:

Our daily timetable adjusts with changes in seasons, ensuring that our Outdoor Play Time is during the most comfortable times of the days. During the warmer months we begin and end the days with Outdoor Experiences, whereas in the coolest months we begin inside and venture outdoors following morning tea.

Our Outdoor areas are programmed for and evaluated each fortnight.

At Wamberal Childcare and Preschool we believe in having an educational approach to Early Childhood Education, whilst allowing children to follow their own interests and develop their individual abilities which choices in play and more structured experiences.

In each of our rooms we have a **MUSIC** group experience and **LITERACY** group experience on a daily basis. These group times can be spontaneous, based on concepts and interests the children have displayed on that day. These group times may also be planned from previous observations taken by our teaching staff, or from input from our families.

The children also have **FREE CHOICE** times, which they can choose from our range of **LEARNING CENTRES** which are set up to develop their cognitive, manipulative, creative, social and communicative abilities.

In our 4 - 5 year old room we also incorporate our **SCHOOL READINESS** program which focuses on Literacy, Numeracy, Social Skills, Problem Solving and Fine Motor development. This program runs from approximately March onwards and also features the "Letterland" program.
